Profile

- Almost **2 years** of professional experience in the field of information security.
- Proficient in conducting Vulnerability Assessment and Penetration Testing (**VAPT**), specializing in **Web, Mobile, API** and **Thick Client** application penetration testing across diverse industries including banking, government, and service providers.
- Holds certifications like **CEHv12** and **eWPTXv2** demonstrating expertise in using persistence, creativity, and perceptiveness to identify vulnerabilities and execute organized attacks under time constraints.
- I have experience working with approximately 70 clients across various sectors, including finance, banking, government, and healthcare.

Professional Experience

Security Analyst

QRC Assurance and Solutions Pvt Ltd

November 2022 – Present | Navi Mumbai

- Executed security testing (DAST) on WEB, Mobile, API and Thick Client applications, employing both manual and automated techniques to identify vulnerabilities and generate comprehensive reports based on OWASP Top 10 and SANS Top 25.
- Carried out Vulnerability Assessment and Penetration Testing (VAPT) on both external and internal networks of diverse organizations.
- Utilized QualysGuard for performing PCI ASV scans.
- Proficient in handling a range of security assessment tools including Nessus Professional, Nmap, Burpsuite, Qualys Guard, ADB, APK tool, Postman, MobSF, SQLmap, Frida, Objection, Netsparker, Metasploit etc.
- Conducted Static Application Security Testing (SAST) using the HP Fortify Tool.
- Delivered client-specific reports showcasing proof of concept for exploits as well as recommendations for remediation and mitigation.

Certificates

Web application Penetration Tester

eXtreme (eWPTXv2)

iNE Security

Certified Ethical Hacker (CEHv12)

EC-Council

Python for Everybody Specialization

Coursera (University of Michigan)

Skills

Web, API and Thick Client Application

Security Testing: Burpsuite, Netsparker, Postman, Curl, Nikto, Nuclei, SQLmap, Fiddler, EchoMirage, dirsearch, Open source scanner etc.

Mobile Application Security

Testing: Android Debug Bridge (adb), MobSF, Frida, Objection, APK Tool, JADX, Cydia, checkra1n.

Network Vulnerability Assessment and

Penetration Testing: Nessus Professional, Qualys, Nmap, Wireshark, Metasploit, Open Source scripts etc.

Scripting and Development: C, C++, Java, Python (Django), Nodejs, JavaScript, MySQL, NoSQL, Rest API, Web Development.

Security Intern

Damn Secure Pentesting Hub

January 2022 – June 2022 | Remote

- Performing Web Application Testing.

Penetration Testing Intern

Virtually Testing Foundation

October 2021 – December 2021 | Remote

- Learn about OWASP Top 10, Hands-On Web Application Penetration Testing, Professional Management & Networking.

Cyber Security Intern

ComExpo Cyber Security Foundation

July 2021 – October 2021 | Remote

- Security : Performed Web Application Pentesting
- Development : Developing web portal & contributing to build web apps.

Projects

Credit Card Fraud Detection System

Python

- Objective to learn ML & Deep Learning Algorithm.

E-Notice Board

Python-Django, MySQL, Bootstrap, HTML, CSS, JavaScript

- Objective was to develop full fledged web-app & to know how to host web-app.

Education

B.E Computer Engineering

Zeal College of Engineering and Research, Pune

2018 – 2022 | Pune

CGPA: 9.13

Declaration

I am a dedicated and results-driven professional with a strong background in cybersecurity. With a proven track record of penetration testing, I am committed to delivering exceptional performance and contributing to the success of any team or organization I work with. I am eager to leverage my expertise and drive to excel in a challenging and dynamic work environment.
